

FRESH AIR FOCUS

FOCUSED AIR PURIFICATION FOR TARGETED AREAS

BENEFITS OF FRESH AIR FOCUS

- Great for bathrooms, laundry areas and small spaces.
- Contains a motion activated night light for dual function.
- Freshens air and removes odors in otherwise stale-prone environments.

BENEFITS OF FRESH AIR FOCUS

Hampers, trash cans, diaper pails... they're all designed to store smelly stuff. How do you stop them from smelling up the whole room? The answer is to take one of nature's most powerful deodorizers and target the very source of the problem; to literally focus what keeps fresh air fresh, and bring it indoors. No sprays, no perfumes - just nature.

- Ion generator removes airborne contaminants.
- Activated oxygen freshens air in otherwise odor or stale-prone environments.
- Easily fits in tight spaces.

- Three user friendly functional settings are available for 'normal,' 'light,' and 'away' modes.
- A non-invasive motion activated 'night light' for dual function.

ABOUT VOLLARA:

You've always heard we are what we eat... NOT TRUE... we are what we ABSORB! Air, water and nutrients are all vital to our health and what we absorb is the key. Vollara technologies offer complete health choices; choices to purify the air you breathe and the surfaces you touch, enrich the water you drink, support your immune system and strengthen your body. Our in-house team works closely with our esteemed Medical & Scientific Advisory Board who tests and researches every component of every technology to ensure we are delivering solid, best-in-class products. Our proven business systems empower people to command their financial footing, to bring security to their lives, to provide for themselves and their loved ones and to help all of us care for this precious planet with which we have been blessed. Welcome to a new way to live healthy. Welcome to Uncompromising Health™ by Vollara.

PRODUCT FEATURES

The advanced technology contained within the Fresh Air Focus serves to make breathing easier, cleaner and healthier. This simple, elegant unit provides the cleanest, freshest air possible within small low ventilated areas by providing:

- The FreshAir Focus uses ionization to provide clean air by creating ions that are negatively charged to remove microscopic particles from the air to clean the air you breathe.
- The FreshAir Focus also uses activated oxygen to freshen the air as it is being cleaned by the ionizer.
